THE SEA ISLAND NEWS.

The Work of the Great Exposition going
on—Prof B. T. Washington to Speak
—Labor Day Observed—Notes.

Charleston, S. C., Special:—Interest
in the coming Exposition is on the in-
crease, and the grounds are attracting
hundreds of visitors. Every stranger
who comes to Charleston wants to see
the Exposition grounds, and as the
railway company gives special rates on
Saturday, numbers of residents here
visit the grounds for a Sunday after-
noon outing. A special committee
from the Pan-American Exposition vi-
sited our city during the past week, and
after inspecting the grounds and look-
ing over the plans of the Exposition,
gave it their hearty endorsement and
recommended exhibitors at the Pan-
American to arrange for space at
Charleston. The progress which is be-
ing made in the erection of the build-
ings, has astonished those who have no
idea how rapidly such things can be
done. One month ago there were many
who declared that it was impossible to
have the buildings completed by Dec.
1st, the date set for the opening, and
prophesied that we would have the
Paris Exposition fiasco repeated at
Charleston on a much smaller scale.
These doubting Thomases are now able
to see that they are convinced.

The Cotton Palace, which will be the
largest building on the ground, is well
underway, and its imposing dome can
be seen from either across the
Ashley or the Cooper River, miles
away. The other buildings are in var-
ious stages of completion, all giving
promise of being finished in ample
time. The work of constructing the
Negro Building is far advanced. The
frame is up and the roof is being put
on. One can get but an imperfect idea
of this building from an illustration, it
is only when the building itself is seen
that we get some idea of its propor-
tions. Already applications for space
are on file and these who intend to ex-
hibit in the Negro Building should not
delay in making application, "Come
early and avoid the rush."

Mr. Booker T. Washington will be
in Charleston on September 12th, to
lecture in the interest of the Negro De-
partment of the Exposition. The lec-
ture was delivered at the Thompson
Auditorium, a building which will seat
about 7,000 persons. Owing to Mr.
Washington's great popularity the
seating capacity of this immense build-
ing will doubtless be taxed to its ut-
most.

Labor Day was very generally ob-
served here. The various trades have
been actively engaged in organizing,
during the past year, and should all the
Unions parade, fully one half of the
adult male population of Charleston
will be in line. Last year for the first
time in the history of the city, colored
and white men marched in the same
procession, and the colored surpassed
the whites both in numbers and ap-
pearance. The recent strikes in various
sections of the country, and the strike
of the local machinists and boiler-mak-
ers, and the local bakers, have drawn
attention to the labor organizations.
They have promised a fine parade and
Labor Day is looked for with interest.
